“ I have many cherished memories and stories with my Uncle Dale. One I would like to share would be a hunting adventure with him my father (his late brother Arnold) and I. We were hunting in Georgetown ny and by mid morning as we were standing in a field getting ready to head down to the house for lunch 2 big deer jumped a fence and came running in a straight line for us. My father shot 1 of the deer and it went down. Needless to say that same deer some how got back up and ran again. My Uncle Dale started looking for it and we found a spot that it should of lay but it was not there. 2 guys came from out of nowhere it seemed and told him that it jumped the fence. So my uncle and I started to track the deer over the fence and thru the woods finding traces of the deer here and there. We never did find the deer but I got to spend quality time with my uncle Dale that afternoon and he taught me some tracking techniques I still use to this day. We had a very good day and had many other as well.
R.I.P and fly high Uncle Dale you will be truly missed but never forgotten. One day we will all meet up again for another hunting adventure. Love your Nephew Dan.
